Education

University of Guelph

Guelph, Ontario

Bachelor of Computing in Software Engineering, Minor in Entrepreneurship.

Expected Graduation, May 2027

- **Relevant Coursework:** Object-Oriented Programming, Data Structures & Algorithms, Discrete Math, Linear Algebra, Calculus, Software Design, Web Development, Operating Systems, Statistics.

Projects

Intelligent Tutoring Systems 🤖 | React, Tailwind CSS, Django, Scikit-Learn, OpenAI

Sept. 2025 – Dec. 2025

- Led a team of **8 developers** by managing tasks and leveraging individual strengths to efficiently build a **Machine Learning** Intelligent Tutoring System.
- Developed **Machine Learning Model** using **Python**, **Scikit-Learn**, and **OpenAI API** to assess learner mastery levels, achieving **85% prediction accuracy** on validation data.
- Designed a responsive **UI/UX prototype in Figma**, collecting feedback from **15+ users** and iterating on designs to improve task completion time by **30%**.

Business Review Analyzer 📊 | React, Tailwind CSS, JavaScript, Express, Apify, Gemini API, Git

Dec. 2025

- Improved business insights by analyzing **Business Google Maps reviews** and providing actionable feedback and statistics through a full-stack web application built with **React** and **Tailwind CSS** and a backend with **Express.js**.
- Integrated **Apify** for automated data scraping and **Gemini API** for AI-powered review analysis, increasing data processing speed and accuracy.

ExcelGPT 🗣️ | React, Tailwind CSS, Python Flask, Matplotlib, Google Gemini API, Git

Oct. 2025 – Nov. 2025

- Developed an AI-powered tool that analyzes Excel spreadsheets using **Python Flask** and **Google Gemini API**, automating data parsing to significantly reduce manual analysis time by approximately **60%** for users.
- Implemented **data visualization** features with **Matplotlib** to provide users with interactive and interpretable insights from their datasets.

Professional Experience

Software Developer Intern

May 2024 – Aug 2024

Algoma Steel Inc

Sault Ste. Marie, Ontario

- **Developed** and **deployed** a **mobile and tablet-responsive data visualization interface** using **AVEVA PI Vision**, enabling on-site operators to securely access real-time operational data across multiple device types.
- **Designed** and **implemented custom PI Vision dashboards** by aggregating high-priority tags, KPIs, and alarms, **reducing screen-switching** and improving on-site engineers' workflow efficiency by **40%**.
- **Diagnosed** and **resolved** critical data discrepancies in migrated PI Vision screens by debugging legacy **VBA scripts**, improving data accuracy by up to **70%** and ensuring reliable real-time monitoring for operations teams.

Leadership Experience

Director of Finance

Sept. 2025 – Present

Google Developer Groups

Guelph, Ontario

- Leading a team of **4 finance members** to raise sponsorship funding for the **GDG Hackathon**.
- Initiated outreach to **100+ companies** and attended meetings to **negotiate sponsorships**, **securing commitments** and **partnerships** to support event logistics and prizes.

Technical Skills

Languages: JavaScript/TypeScript, Python, Java, Bash/Shell, HTML/CSS, SQL, C++, C, Assembly, VBA.

Frameworks & Libraries: React.js, Next.js, Node.js, React Native, Tailwind CSS.

Developer Tools: Docker, REST API, UI/UX, Linux, Git, Github, GitLab, Azure, Google Cloud, C Check, VS Code, Firebase, Jira, Trello, AVEVA PI Asset Framework, PI Vision, Easy68k, Netlify, Vercel, Figma, MongoDB, Supabase, Postman.

Other Skills: System Testing, Agile, Scrum, Sprints, Microsoft Office, IT support, Project Management, Organization, Leadership, Problem-solving, Communication.
